

# LED Luminous Panel and Magnetic Frame - Dimensions

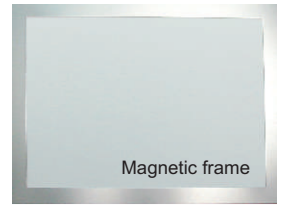

**hansen**

## Luminous panel (with one LED strip)

Luminous panel sizes

Height (cm)	Width (cm)	Power (W)
20	40	3.6
20	60	6.0
20	80	7.8
20	100	9.6

The sizes given in the table refer to the luminous panel and should be taken as an exemplary guideline.

Other dimensions are available on request.

The magnetic frame has a width of **30 mm** all round and overlaps the luminous panel by **20 mm**.

This means:

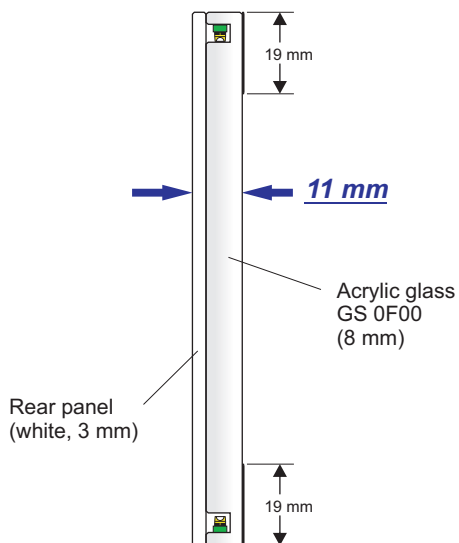

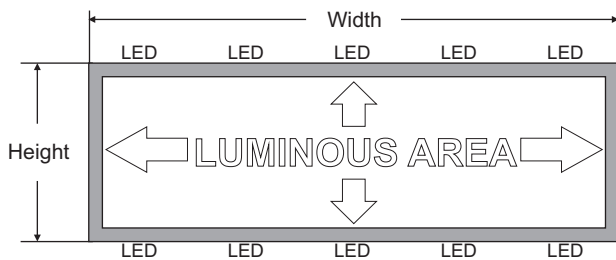

**Outside dimensions minus 20 mm = luminous panel size**

25	40	3.6
25	60	6.0
25	80	7.8
25	100	9.6

30	20	1.8
30	40	3.6
30	60	6.0
30	80	7.8
30	100	9.6

The luminous panels are equipped with Standard PLUS LEDs at a spacing of 20 mm. Other types of LEDs and spacings are available on request.

## Luminous panel (two opposite LED strips)

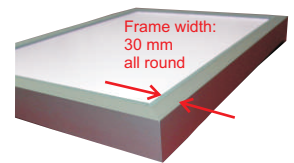

Height (cm)	Width (cm)	Power (W)
40	20	3.6
40	40	7.2
40	60	12.0
40	80	15.6
40	100	19.2

**Luminous panel size minus 40 mm = visible area**

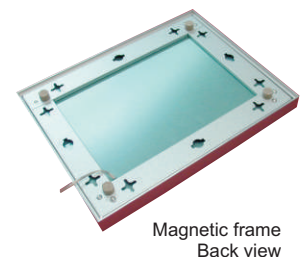

**Outside dimensions minus 60 mm = visible area**

50	20	3.6
50	40	7.2
50	60	12.0
50	80	15.6
50	100	19.2

60	20	3.6
60	40	7.2
60	60	12.0
60	80	15.6
60	100	19.2

90	20	3.6
90	40	7.2
90	60	12.0
90	80	15.6
90	100	19.2

<b>Height</b> 100 cm	<b>Width</b> 200 cm
-------------------------	------------------------

**Maximum dimensions (in one piece)**
