

## Setting sophisticated accents

*Ideal for museums, theatres, offices, hotel corridors, etc.*

### Homogenously bright luminous surfaces

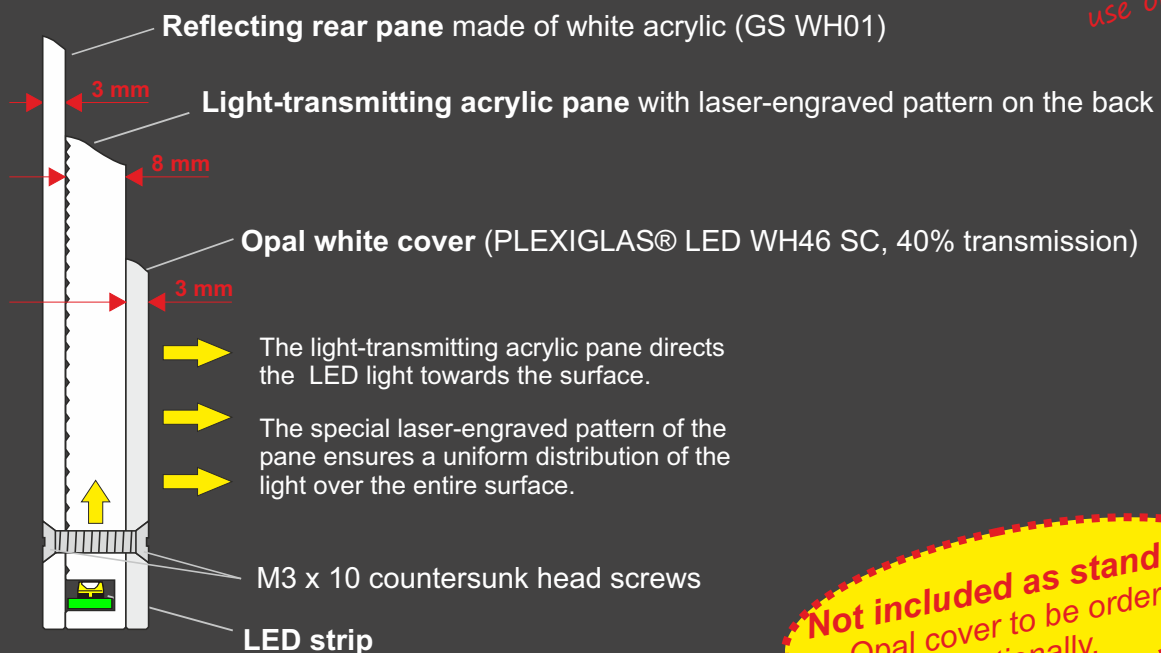

This special variant of our **Luminous Panel** can be used without a motif foil to create a **very special uniform luminous surface**:

- **trendy** bright LED light
- **aesthetic** design for ceilings and walls
- **flexible** with a depth of 14 mm and low weight
- **creative** using white or RGB LEDs
- **energy-efficient** LED technology

## Luminous panel with 3 mm opal white cover

### Sectional view

Actual size

*Suitable for indoor use only*

**Not included as standard!**  
Opal cover to be ordered optionally.

When fitted to the Luminous Panel, the opal acrylic cover creates a very intense and uniform impression of brightness.
